

GREEN SCHOOL DRIVE
“MISSION MORINGA”

OBJECTIVE

As a part of our green school drive, our school recently undertook an ambitious plan entitled “MISSION MORINGA,”. It is an initiative undertaken by O.P.Jindal School, Raigarh (C.G.) in the month of August, 2019 in which students of classes VI-VIII planted 855 SAPLINGS OF DRUMSTICK (Moringa Oleifera) in our school campus as well as in the city of Raigarh. This helped us create awareness about the protection of environment and develop respect towards Mother Earth. Further, our students developed a sense of belongingness and care for Mother Earth.

In this mission, a mass awareness was created in the school and Raigarh city about the importance of this Miracle Tree.

This is an initiative undertaken specially under the guidance of our Principal, Mr.R.K.Trivedi.

PROCESS

A prior consent was taken from the parents about their wards’ participation in this Mission.

855 saplings were provided to the students of classes VI-VIII by the school on 17.08.2019.

Plantation was done on the same day by the students along with their parents in their respective location in the city of Raigarh.

In the course of this, photographs in their school uniform were clicked and sent to their respective CTs through WhatsApp.

FOLLOW-UP

Students have to regularly monitor and ensure proper growth of the plant and discuss with their CTs.

The growth of the plant will be reviewed by the students in the second week of November and report about the same to the CTs.

EXECUTION

Students participated in this MISSION MORINGA enthusiastically and took a big step in protecting the environment by planting 855 saplings in the city of Raigarh.
