

Career Guidance Cell

A career guidance cell is formed in school to build awareness of courses, universities and career pathways to help students formulate their academic and career goals in an informed manner. The team trained specifically for the purpose conduct skill & interest-based surveys to lead students for choosing the courses and subjects for higher studies according to their professional needs. Relevant information is shared with students verbally in counselling sessions and in written through brochures, Power Point Presentations etc. University Fair is also organised collaborating with top-notch universities and colleges to inspire students unleashing entrepreneurial mindset and inform about educational and employment opportunities in India and abroad.

Proficiency tests like SAT, GRE, IELTS, TOEFL etc. are also introduced along with competitive examinations like JEE, NEET, NIFT, CUET. A proper framework is prepared to align classroom learning with future professional prospects providing valuable insights.
