## From the desk of the Principal

*Dear Students/Parents,*

Education is the sine qua non of societal advancement, the backbone upon which the edifice of a nation is erected. A nation's strength, vitality, and prosperity are intrinsically linked to the quality of its educational system. It serves as the crucible where the raw potential of individuals is transformed into the refined substance of productive citizens, and ultimately, the architects of a brighter future.

Education imparts not only knowledge but also fosters critical thinking, creativity, and empathy. It equips individuals with the tools to decipher the complexities of the modern world, promoting social and economic progress. A well-educated populace is an invaluable asset, driving innovation, entrepreneurship, and sustainable development. Education forms the spine that supports the nation's growth and resilience, enabling it to stand tall and navigate the myriad challenges it faces. The strength of this spine determines the nation's posture, flexibility, and endurance on the path to progress and prosperity.

We at OPJS always endeavour towards creating something better for our learners! Our E-newsletter reflects some of the important happenings of our academic life.

Happy Reading!

Best wishes !
