## From the desk of the Principal

#### Dear Students/ Parents,

Humans are naturally inclined towards learning. The challenge, and a primary goal of education, must be to nurture curious, flexible, creative, and potentially critical thinkers – to nourish their natural susceptibility for learning progressively throughout their school lives and beyond. School, as an embodiment of knowledge, should take the responsibility to ignite purpose of learning among children, which makes their journey enjoyable.

Our personality and our ability to learn both rely profoundly on the wisdom we get in school. It cultivates moral development, Cultural progress, intellectual growth, physical fitness & socio-emotional expansion of children. It is the bedrock of success in both the personal and professional spheres. Therefore, each student must focus and grasp the ample number of opportunities that an institution offers.

Outside the classroom, students pursue valuable lessons such as social skills, behavioural etiquettes, and gaining a sense of achievement through the continuously developing infrastructural facilities and other resources. The quintessence of modern day education is to empower each child to be a curious learner, critical thinker and forceful member of everchanging global society.

We, at OPJS-Raigarhensure the aforementioned and strive to see our students' beginning culminates in peerless success. We always endeavour for the all round development of the learners and believe in creating a better world for our young ones with the power of education.

Keep reading and growing!

Best wishes!

R. K. Trivedi Principal
