PT4/ANNUAL EXAMINATION, 2023-24

COMPUTER STUDIES (AI & Coding)

Time – 2 hrs.		Class – VIII				M.M. – 30																																																																																																																			
Name	of the student	t			_Section	_ Date - 06	5.02.2024 (Tuesday)																																																																																																																		
		Instru	ictions:																																																																																																																						
		1.	Attempt all ques	tions.																																																																																																																					
	2. Write complet			statement of fill in the blanks.																																																																																																																					
Q1.	Out of the f	four op	tions given belo	w, tick (✓) the	correct opt	tion:	1*5=5																																																																																																																		
(a)	Which of the following is considered as data?																																																																																																																								
	i) Speech		ii) Video	iii) Message	iv) A	ll of these	e																																																																																																																		
(b)	The main container for <th>, <tr>&<td> is:</td><td></td></tr><tr><td></td><td>i) <tfoot:< td=""><td>></td><td>ii) <tb></tb></td><td>iii) <tbl></tbl></td><td>iv) <'</td><td>TABLE></td><td></td></tfoot:<></td></tr><tr><td>(c)</td><td colspan="7">An iterative statement is also known as a statement.</td></tr><tr><td></td><td>i) Looping</td><td></td><td>ii) Conditional</td><td>iii) Selection</td><td>iv) N</td><td>one of the</td><td>ese</td></tr><tr><td>(d)</td><td colspan="6">Href stands for:</td><td></td></tr><tr><td></td><td colspan="2">i) Huge Record</td><td colspan="2">ii) Hypertext</td><td colspan="2">record</td><td></td></tr><tr><td></td><td colspan="3">iii) Hypertext Reference</td><td colspan="3">iv) Huge Reference</td><td></td></tr><tr><td>(e)</td><td colspan="6">The function produces a list of a sequence starting with an value up to a final value.</td><td>initial</td></tr><tr><td></td><td>i) range()</td><td></td><td>ii) in()</td><td>iii) for()</td><td>iv) w</td><td>hile()</td><td></td></tr><tr><td>Q2.</td><td colspan="4">Fill in the blanks:</td><td></td><td></td><td>1*5=5</td></tr><tr><td>(a)</td><td colspan="7"> are unwanted bulk emails that come from unknown sources.</td></tr><tr><td>(b)</td><td colspan="3">The default value applied by the browser is</td><td>owser is</td><td colspan="3"> in unordered list.</td></tr><tr><td>(c)</td><td colspan="7"> is a process in which the goal is to make better choices.</td></tr><tr><td>(d)</td><td colspan="3">A for or while loop can have an option</td><td>ional</td><td>_ block as</td><td>well.</td><td></td></tr><tr><td>(e)</td><td> ref</td><td>fers to a</td><td>ın illegal intrusio</td><td>n into a comput</td><td>er system o</td><td>r network</td><td></td></tr></th>						, <tr>&<td> is:</td><td></td></tr> <tr><td></td><td>i) <tfoot:< td=""><td>></td><td>ii) <tb></tb></td><td>iii) <tbl></tbl></td><td>iv) <'</td><td>TABLE></td><td></td></tfoot:<></td></tr> <tr><td>(c)</td><td colspan="7">An iterative statement is also known as a statement.</td></tr> <tr><td></td><td>i) Looping</td><td></td><td>ii) Conditional</td><td>iii) Selection</td><td>iv) N</td><td>one of the</td><td>ese</td></tr> <tr><td>(d)</td><td colspan="6">Href stands for:</td><td></td></tr> <tr><td></td><td colspan="2">i) Huge Record</td><td colspan="2">ii) Hypertext</td><td colspan="2">record</td><td></td></tr> <tr><td></td><td colspan="3">iii) Hypertext Reference</td><td colspan="3">iv) Huge Reference</td><td></td></tr> <tr><td>(e)</td><td colspan="6">The function produces a list of a sequence starting with an value up to a final value.</td><td>initial</td></tr> <tr><td></td><td>i) range()</td><td></td><td>ii) in()</td><td>iii) for()</td><td>iv) w</td><td>hile()</td><td></td></tr> <tr><td>Q2.</td><td colspan="4">Fill in the blanks:</td><td></td><td></td><td>1*5=5</td></tr> <tr><td>(a)</td><td colspan="7"> are unwanted bulk emails that come from unknown sources.</td></tr> <tr><td>(b)</td><td colspan="3">The default value applied by the browser is</td><td>owser is</td><td colspan="3"> in unordered list.</td></tr> <tr><td>(c)</td><td colspan="7"> is a process in which the goal is to make better choices.</td></tr> <tr><td>(d)</td><td colspan="3">A for or while loop can have an option</td><td>ional</td><td>_ block as</td><td>well.</td><td></td></tr> <tr><td>(e)</td><td> ref</td><td>fers to a</td><td>ın illegal intrusio</td><td>n into a comput</td><td>er system o</td><td>r network</td><td></td></tr>	is:			i) <tfoot:< td=""><td>></td><td>ii) <tb></tb></td><td>iii) <tbl></tbl></td><td>iv) <'</td><td>TABLE></td><td></td></tfoot:<>	>	ii) <tb></tb>	iii) <tbl></tbl>	iv) <'	TABLE>		(c)	An iterative statement is also known as a statement.								i) Looping		ii) Conditional	iii) Selection	iv) N	one of the	ese	(d)	Href stands for:								i) Huge Record		ii) Hypertext		record				iii) Hypertext Reference			iv) Huge Reference				(e)	The function produces a list of a sequence starting with an value up to a final value.						initial		i) range()		ii) in()	iii) for()	iv) w	hile()		Q2.	Fill in the blanks:						1*5=5	(a)	are unwanted bulk emails that come from unknown sources.							(b)	The default value applied by the browser is			owser is	in unordered list.			(c)	is a process in which the goal is to make better choices.							(d)	A for or while loop can have an option			ional	_ block as	well.		(e)	ref	fers to a	ın illegal intrusio	n into a comput	er system o	r network	
is:																																																																																																																									
	i) <tfoot:< td=""><td>></td><td>ii) <tb></tb></td><td>iii) <tbl></tbl></td><td>iv) <'</td><td>TABLE></td><td></td></tfoot:<>	>	ii) <tb></tb>	iii) <tbl></tbl>	iv) <'	TABLE>																																																																																																																			
(c)	An iterative statement is also known as a statement.																																																																																																																								
	i) Looping		ii) Conditional	iii) Selection	iv) N	one of the	ese																																																																																																																		
(d)	Href stands for:																																																																																																																								
	i) Huge Record		ii) Hypertext		record																																																																																																																				
	iii) Hypertext Reference			iv) Huge Reference																																																																																																																					
(e)	The function produces a list of a sequence starting with an value up to a final value.						initial																																																																																																																		
	i) range()		ii) in()	iii) for()	iv) w	hile()																																																																																																																			
Q2.	Fill in the blanks:						1*5=5																																																																																																																		
(a)	are unwanted bulk emails that come from unknown sources.																																																																																																																								
(b)	The default value applied by the browser is			owser is	in unordered list.																																																																																																																				
(c)	is a process in which the goal is to make better choices.																																																																																																																								
(d)	A for or while loop can have an option			ional	_ block as	well.																																																																																																																			
(e)	ref	fers to a	ın illegal intrusio	n into a comput	er system o	r network																																																																																																																			

Q3. Very short answer type questions.

1*5=5

- (a) Write any two common video formats.
- (b) What do you understand by SRC attribute?
- (c) Define 'in' operator.
- (d) Define Big Data.
- (e) What is use of Firewall?

Q4. Short answer type questions.(Any 5)

2*5=10

- (a) Define hyperlink with syntax.
- (b) Who are Hackers? What is Ethical Hacking?
- (c) What do you mean by data? Give two examples of real life applications of data.
- (d) Define tag with Syntax.
- (e) What are the common career paths for Data Science?
- (f) Mention any three disadvantages of Internet.
- (g) How do you insert frame in HTML document?

Q5. Long answer type questions. (any one)

5*1=5

What do you mean by iterative statements? Differentiate between for & while loop.

OR

What is a table? Explain the properties of <TABLE> tag.
